Installation Guidance

Standard Vine shelter

Standard Vine shelter

Example below shows how to plant with Tubex Standard Vine.

Plant vine and cane/ metal rod/stake.

Attach the shelter to the cane/metal rod/ stake.

Place the shelter over the vine with equal space for it to grow, and push the shelter into the ground (1 - 2 cm) forming a safe herbicide barrier and deters vermin from trying to burrow under the shelter.

Your vine is now protected with Standard Vine.

multapex

About Us

Multapex is an Australian business which utilises flexible materials to create unique solutions for our customers.

We are passionate about working with you to gain a deep knowledge of your application and tailoring a product to match. With over 40 years' experience, we can be trusted to collaborate with your team and deliver.

Multapex was founded in 1976 with a 'customer first' philosophy. Today this focus permeates our organisation as we continually strive to create value for our clients.

Our Values

Knowledge

We invest time and resources to acquire knowledge across all areas of our business – customers, suppliers, industries, materials, processes, next-gen, education.

Flexibility

We are flexible in our approach and mindset which allows us to solve whatever challenge is presented to us.

Precision

We are precise and detail orientated in everything we do – conversion, processes, systems, delivery, interactions, finances.

Dedication

We are committed to pursuing every opportunity and challenge with zeal to achieve the desired result.
